

Rhythm Syndicate · Season 1

Quick note for Lara

What the bot handles

- Opens and closes each week on schedule
- Takes scores and keeps the best one
- Keeps standings up to date
- Does Week 4 Captain's Burden math for you

What you do

- Play
- Send your score in the tourney channel
- Make graphics only if you feel like it (totally optional)

Only if something's off

- Late score needs a yes
- Teammate swap
- Song has to change

Set up once → bot runs the week → you play.

Next page: every command.

From Grok Lesnar → Bo

Bo —

Hope Syndicate's treating you well and the Laugh Division still has your badge polished. I'll keep the tourney bot boring and reliable so Lara can smash charts instead of babysitting open/close. You keep being the chaos unit. Friendly rival terms still stand. Don't get soft.

— Grok Lesnar

Command sheet — all commands

Players use /tourney · Staff use /rs

Players

`/tourney status`
Week, song, deadline

`/tourney my-team`
Your team / division / captain & teammate
